

Long Distance Telephone Sessions

Pet Owner Telephone Consults

We all love our furry friends and want to support them as best we can. Suppose you are attempting to get in touch with your animal's emotional wellbeing and need guidance or support but can't make it to an appointment. Brigitte does offer the option of **pet owner telephone consults**. With help from a trusted intermediary, this convenient support helps people communicate effectively with their animals and enjoy a closer connection.

When Brigitte steps in to help from miles away, you will be amazed at how much more attentive your pet becomes and how his or her behaviors improve. These holistic **telephone consultations for pet owners** are the same as in-person appointments; only you'll need a phone and a picture of your furry friend. Despite the distance, Brigitte's animal behavior advice can help you resolve the disconnection and behavioral issues that could stem from:

- Overstimulation
- Emotional Imbalance
- Stressful Environmental Factors
- A Traumatic History with other Owners

As Brigitte helps you connect with your pet and offers insightful and animal behavior advice, your call will be digitally recorded so you can play it back for review in the future. You'll receive an email with a link to the recording soon after the session ends and then a courtesy follow-up four to six weeks later.

Without leaving the comfort of your home, you can make this your first step to a well-rounded relationship with your animal friend. Brigitte proudly serves pet owners nationwide, so schedule a call with All-Ears Animal Communication today.
